About Zerosnap

Zerosnap
SAFE | FAST | SECURE

Zerosnap ID Solutions is a technology-first company delivering intelligent identity capture and document automation solutions powered by AI and intelligent data extraction. Beyond identity solutions, we develop a suite of domain-specific software tailored to optimize operations across various industries — including nutrition and meal planning systems, digital commerce platforms, workflow and service management tools,distribution and inventory control solutions, as well as financial and business accounting applications. Our commitment to innovation, customization, and seamless integration helps clients drive efficiency, ensure compliance, and deliver superior user experiences.

OUR CORE STRENGTHS

AI-Powered Data Extraction
Advanced recognition engine that reads and understands complex documents in seconds.

Plug-and-Play Operation
Works effortlessly with any ERP, CRM, or accounting software — no integration or API setup required.

Customizable Workflows
Tailored solutions that adapt to the unique operational structure of each organization.

Enterprise-Grade Security
Built with strict data privacy and encryption standards to ensure complete security of business information.

Cross-Industry Expertise
Trusted by clients across banking, healthcare, retail, manufacturing, and enterprise operations.

Zerosnap SUITE

Where Intelligence Meets Simplicity

THE COMPLETE ECOSYSTEM FOR INTELLIGENT AUTOMATION

The **Zerosnap Suite** is a next-generation ecosystem of intelligent products designed to **simplify operations, connect systems, and automate workflows** — without complex integrations or manual effort. Powered by AI-driven data extraction, cross-platform connectivity, and seamless automation, the Zerosnap Suite empowers businesses to work smarter, faster, and more efficiently across industries.

THE SUITE THAT TRANSFORMS OPERATIONS

- **Smart Check-in**
- **SnapLink** – Seamless File Exchange
- **Pokito** – Visitor Management System
- **Zerosnap Invoice** – Intelligent Purchase Invoice Processor
- **EasyFiling** – Automated Government & Compliance Filing
- **MagicBridge** – The Intelligent Connector

ONE SUITE. INFINITE POSSIBILITIES.

Each product stands strong on its own — yet, when combined through **MagicBridge**, the Zerosnap Suite becomes an **end-to-end automation** powerhouse that eliminates data silos and manual effort across any industry.
From **hospitality to healthcare, finance to logistics**, Zerosnap Suite transforms everyday operations into seamless digital experiences.
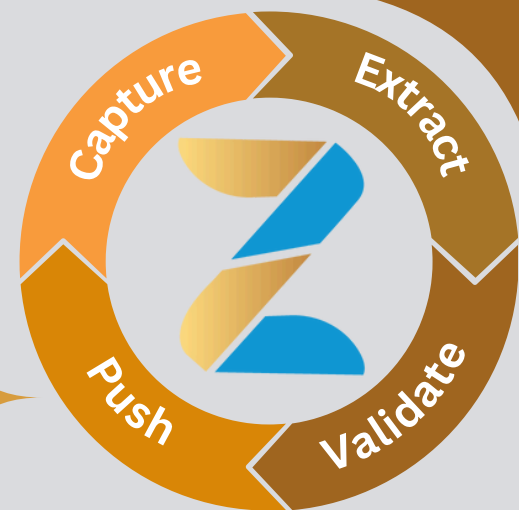

Zerosnap
Smart Checkin

Seamless, Secure, and Smart

Simplify your front-desk operations with a single solution that instantly captures guest information from **Passports or Government IDs** and pushes it directly to the **FRRO portal** or your **Property Management System (PMS)** — all *without* any system **integration or manual typing.**

HOW IT WORKS

1. **Capture:** Scan the guest's Passport or Indian Government ID Cards.
2. **Extract:** Instant AI powered auto-extraction of required data fields.
3. **Validate:** Verify the information on screen.
4. **Push:** Send the data securely to the FRRO portal or PMS, based on your workflow preference.
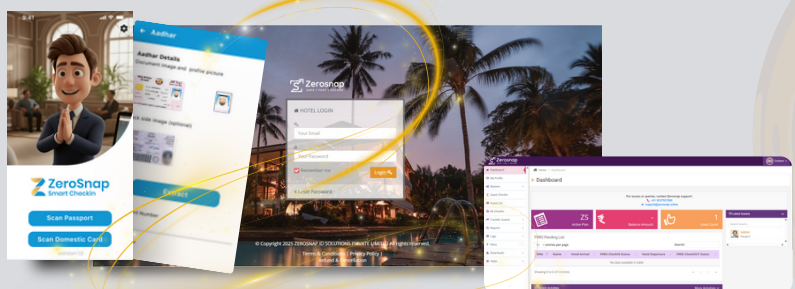

(Cycle diagram: Capture → Extract → Validate → Push)

KEY ADVANTAGES

⌐ Zero Integration Needed– Operates seamlessly with any PMS or FRRO portal

⌐ Instant Data Capture – AI-driven capture — scan the Passport or Indian Government ID to auto-extract guest details in seconds.

⌐ Push to FRRO or PMS in One Click – Push guest data seamlessly to FRRO or PMS with a single click.

⌐ 100% Accuracy, Zero Manual Errors – AI captures every detail — no typing, no errors.

⌐ FLow Maintenance, One-Time Setup – No recurring integration cost, no AMC, and minimal IT dependency.

IDEAL FOR

Hotels, resorts, Serviced Apartments, Corporate Housing & Guest Houses, Home Stays, and Travel Desks & Front-Office Kiosks

Zerosnap *invoice*

Revolutionizing invoice data entry with AI precision and speed

Managing purchase invoices and sales invoice (PO) entries into ERP or equivalent systems can be time-consuming and error-prone. **Zerosnap Invoice** transforms this process through **AI-powered** data capture and instant integration, enabling complete invoice processing — even with **200 line items** — in **under one minute**.

KEY FEATURES

AI-Powered Data Extraction

Automatically identifies and captures every field from invoices, including complex multi-line item details, taxes, totals, vendor codes, and PO numbers with Template-free processing.

Multi-Invoice Batch Processing

Process hundreds of invoices in a single run, saving hours of manual effort daily.

Instant ERP-Ready Output

Generates data perfectly formatted for your ERP, accounting, or procurement software without manual re-entry.
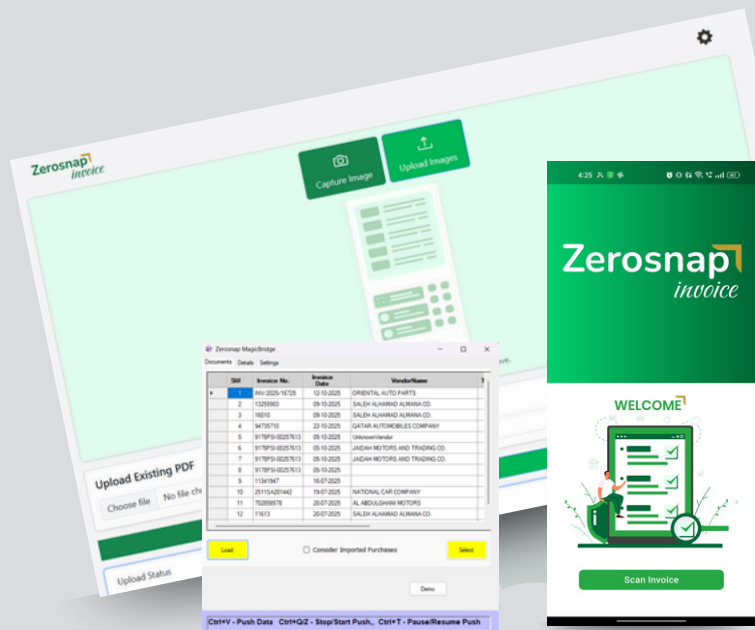

No Integration Required

Zerosnap enables effortless data transfer across multiple platforms— no integration or API needed. Works seamlessly with scanned, digital, or image invoices, with zero manual setup.

snaplink
Secure File Transfer

Seamless.
Secure.
Direct.

THE SIMPLEST WAY TO TRANSFER FILES — INSTANTLY AND SECURELY

SnapLink from **Zerosnap** redefines the way data moves between devices. It enables **secure, direct file transfer from any mobile, desktop, or laptop** — **across any network** — **to a local machine**, all through the internet and without any complex setup.

WHY SNAPLINK

- **Cross-Network Connectivity** Transfer data effortlessly between devices — even when they're on different networks.

- **End-to-End Security** Every transfer is encrypted, ensuring your files remain protected and private.

- **No Integration Required** SnapLink connects devices directly — removing the need for dedicated servers, middleware, or VPNs.

- **Fast and Reliable** Optimized for high-speed data movement with zero manual intervention.

- **Universal Compatibility** Works seamlessly across mobile, desktop, and web platforms — built for real-world flexibility.

WHERE SNAPLINK FITS IN

SnapLink is part of the Zerosnap Suite, a powerful ecosystem of automation and data-exchange tools. Together with MagicBridge, it enhances interoperability across systems, enabling secure data mobility and automation-ready workflows for businesses in every sector — from healthcare and retail to finance and government.

Just pure, intelligent connectivity.

Zerosnap EasyFiling

Automated Compliance & Data Submission.

Automate Every Submission. Simplify Every Process.

SMARTER FILING FOR A SMARTER WORKPLACE

Zerosnap EasyFiling transforms how organizations handle their daily administrative and compliance workflows.

It automates the submission of data to **government, regulatory, and internal portals** using information that's already available — eliminating repetitive data entry, saving time, and ensuring total accuracy.

Whether it's routine filings, compliance forms, or statutory submissions, EasyFiling handles them all — **intelligently, securely, and effortlessly.**

KEY HIGHLIGHTS

- **Automated Government & Compliance Filing** Fills and submits data to multiple portals automatically.

- **Reuses Existing Data** Uses available system data — no repetitive entry.

- **Save Time & Increase Accuracy** Completes filings in seconds with consistent results.

- **Secure & Reliable** ncrypted transfers ensure compliance and data safety.

- **Zero Integration Required** Works independently — no need for API integrations or middleware setups.

WHY CHOOSE EASYFILING

- Streamlines compliance tasks
- Reduces manual work and delays
- Improves accuracy and audit readiness
- Ensures transparency and traceability

![magicbridge - Intelligent Interface]

The Intelligent Link That Connects Everything

Powering the Zerosnap Suite

Together with Zerosnap's AI-driven tools for data extraction, workflow automation, and analytics,
 MagicBridge turns the Zerosnap Suite into a complete digital ecosystem — capable of connecting any system, automating any process, and accelerating digital transformation.

Key Highlights

Zero Integration

Connect applications instantly — legacy or modern — without middleware or coding.

Universal Data Exchange

Transfer data or files between mobiles, desktops, or web systems through the internet — securely and in real time.

Automation Ready

Forms the backbone for intelligent Robotic Process Automation (RPA), enabling systems to communicate and execute workflows seamlessly.

Secure by Design

End-to-end encryption ensures every transaction stays protected and compliant.

Scalable & Adaptive

Easily fits into any business environment — from healthcare to finance, logistics to retail.

Why MagicBridge

- No integration cost or downtime
- Faster deployment & scalability
- Secure and compliant
- Future-ready architecture

www.zerosnapsolutions.com

Reimagining Connectivity. Redefining Automation.

In a world of disconnected systems and endless integrations, **MagicBridge** brings simplicity back to technology.

Built by **Zerosnap**, MagicBridge enables **instant, secure, and intelligent data transfer** between any software, platform, or device — **without the need for integration or APIs.**

It's the invisible link that powers the **Zerosnap Suite**, transforming it into a unified digital ecosystem for data exchange and robotic process automation.

ZEROSNAP POKITO

Smart Visitor Management

Pokito is a modern, **AI-driven** visitor management solution that replaces **manual registers** with a **fast, secure, and fully digital** visitor management experience. Built for organizations that prioritize **security, efficiency, and compliance,** Pokito streamlines how visitors, vendors, and staff enter and move within your premises.

KEY HIGHLIGHTS

Quick Digital Check-in
Scan IDs with instant data capture and badge printing.

QR-Based Pre-Registration
Send QR invites for fast, contactless entry.

AI Identity Capture
Accurate extraction of visitor details with zero manual typing.

Access Control Integration
Supports gates, turnstiles, and door controllers.

Instant Host Alerts
SMS/Email/WhatsApp notifications for approvals.

Centralized Visitor Dashboard
Real-time tracking with audit-ready reports.

Vendor & Contractor Management
Monitor agency staff, documents, and validity.

WHY CHOOSE POKITO?

- Faster check-ins and reduced lobby congestion
- Enhanced security with digital identity verification
- Strong audit trails and compliance-friendly records
- Deployable across multiple branches and locations
- Seamless integration with existing systems

diettracker
Wellness Served
Hospital Nutrition Management, Re-Imagined.

TRANSFORMING HOSPITAL DIETARY OPERATIONS

DietTracker is a comprehensive nutrition and meal-management solution built for **hospitals.** It streamlines how diets are **planned, delivered, and monitored** — bringing accuracy, speed, and transparency to every stage of patient nutrition.

WHY HOSPITALS RELY ON DIETTRACKER

- I**nstant Meal Logging -** Capture meals with ease and record complete dietary details effortlessly.
- **Real-Time Patient Dietary Monitoring -** Track calorie intake, nutrients, restrictions, and diet compliance instantly.
- **Eliminates Manual Work -** Automated data capture and structured workflows remove errors and delays.
- **End-to-End Diet Management -** Supports hospital diet rules, allergies, restrictions, and patient-specific plans.
- **Insightful Nutrition Dashboards -** Helps dietitians and clinicians evaluate nutrition trends and plan treatments better.

KEY HIGHLIGHTS

- **One-Click Meal Capture & Documentation**
- **Detailed Nutritional Analysis**
- **Custom Diet Plans & Alerts**
- **Hospital-Wide Workflow Coordination.**
- **Seamless EMR / HIS Integration**
- **Intuitive, Easy-to-Use Interface.**

Visible Benefits

- 30% faster diet planning
- Up to 90% fewer manual diet-entry errors
- Improved dietary compliance across wards
- Higher patient satisfaction and engagement

Our Services

01 **Robotic Process Automation (RPA) Solutions**

Our RPA solutions leverage intelligent automation to streamline workflows, eliminate manual effort, and enhance overall operational efficiency. Powered by AI-driven bots and secure system integrations, we help enterprises achieve scalable, cost-effective digital transformation globally.

02 **Artificial intelligence & Augmented Reality**

Our AI solutions leverage automation, predictive analytics, and data intelligence to drive smarter decisions and optimize operations. We also craft immersive AR experiences that merge digital and physical environments, enhancing engagement and visualization across retail, healthcare, and real estate sectors.

03 **Intelligent SaaS Architecture & Engineering**

We build scalable, cloud-native SaaS solutions with secure architectures and automated DevOps pipelines. Our expertise ensures high-performance, subscription-based platforms that drive innovation and digital transformation for global businesses.

04 **Web & Mobile Application Design & Development**

We deliver high-performance web and mobile application development solutions that combine elegant UI/UX design, scalable architecture, and secure integrations. Using modern frameworks and cloud-ready technologies, we create responsive, future-ready applications that enhance user engagement and drive business growth globally.
